JOINT PROJECT MANAGERS MEETING

825 Jadwin/Room 340 Hanford, Washington May 30, 2006

3:00 pm - 4:30 pm

Agenda

I. M-91

- A. Approval of April 25, 2006 M-91 PMM Meeting Minutes
- B. Current Status
 - 1. TPA Milestones Update
 - 2. SAP Implementation Status
- C. General Discussions
- D. Status of Actions
- E. New Action Items

II. LLBG

- A. Approval of April 25, 2006 LLBG PMM Meeting Minutes
- B. Current Status
- C. Project Specific Issues
 - 1. Permit Status
 - 2. Groundwater Sampling Schedule
- D. General Discussions
- E. Status of Actions
- F. New Action Items

III. SW-1 & 2

- A. Approval of April 25, 2006 SW-1 & 2 PMM Meeting Minutes
- B. Current Status
 - 1. Monthly Highlights
 - 2. TPA Milestones Update
- C. General Discussions
- D. Status of Actions
- E. New Action Items

IV. Next Joint Project Managers Meeting

SW-1 & 2 PROJECT MEETING MINUTES

Joint Project Managers Meeting 825 Jadwin/Room 340 Hanford, Washington

May 30, 2006

- I. Approval of April 25, 2006 SW-1 & 2 PMM Meeting Minutes
- II. Current Status
 - A. Monthly Highlights

Greg Berlin presented monthly highlights for the operable units (attached). Ecology asked that they be informed when field characterization activities begin so they can observe the work. Ecology will coordinate with FH and will be available to go into the field to learn how the process works. A hydro geologist will be part of the Ecology team.

- B. TPA Milestones Update

 No milestone updates were available.
- III. General Discussions

 There were no additional discussions to report.
- IV. Status of Actions

1370 – Ecology had asked for an Excel table of all waste sites. FH forwarded a table that is put together on an annual basis in January that updates assignments of waste sites and Operable Units. A separate meeting should be held to discuss where the last update of Appendix C ended up and what to do to get it moving again. This is related to the M-15 milestone negotiations.

- V. New Action Items
 There were no new action items.
- VI. Next Joint Project Managers Meeting
 Ecology voiced a desire to discontinue the Joint meetings and return the units to their
 respective PMM schedules. LLBG and M-91 will return to the WSD PMMs held on the
 fourth Thursday of the month, and SW-1 and 2 will return to the 200 UMM held on the
 third Thursdays.

Description:

Provide a position paper on RCRA/CERCLA integration.

Total a position paper on the order of the control				
	Date	Status		
	5/30/2006	Ecology had asked for an Excel table of all waste sites. FH forwarded a table that is put together on an annual basis in January that updates assignments of waste sites and Operable Units. A separate meeting should be held to discuss where the last update of Appendix C ended up and what to do to get it moving again. This is related to the M-15 milestone negotiations.		
	4/25/2006	Some support from the FH TPA group will be needed to provide the number of waste sites by OU. Jeannette Hyatt (FH) will provide information requested by John Price (Ecology) to allow completion of the paper.		
	2/28/2006	Ron Skinnarland (Ecology) has taken the lead and has decided to go back to the TPA as the process.		
	1/24/2006	Ecology indicated work is being done on an overall approach to the RCRA/CERCLA matter. When internal reviews are complete the approach will be offered for consideration.		
	11/22/2005	The position paper remains in Ecology management/legal review. A response is expected in early 2006.		
	10/25/2005	Ecology needs to conduct internal discussions to determine the path forward. A schedule for a response will be provided next week.		
	8/23/2005	Matt Mills will provide the position paper at the September meeting.		
	7/26/2005	Task opened. Matt Mills will be the actionee.		

200-SW-1 and 200-SW-2 Operable Units Monthly Highlights

May 2006

200-SW-1 and 200-SW-2

- DQO Report for Nonintrusive Characterization A document entitled "Data Quality Objectives Summary Report for Nonintrusive Characterization of Bin 3A and Bin 3B Waste Sites in the 200-SW-2 Operable Unit" (D&D-27257) was completed. This document was approved by FH, and received concurrence signatures from DOE-RL and Ecology. This document was approved for public release on May 16, 2006.
- <u>SAI for Report for Nonintrusive Characterization</u> A document entitled "Sampling and Analysis Instruction for Nonintrusive Characterization of Bin 3A and Bin 3B Waste Sites in the 200-SW-2 Operable Unit" (D&D-28283) was completed. This document was approved by FH, and received concurrence signatures from DOE-RL and Ecology. This document was also approved for public release on May 16, 2006.
- Field Characterization Activities— Field work planning for passive organic vapor surveys, and geophysical investigations and radiation surveys was initiated. The geophysical investigations and organic vapor surveys are targeted to begin in early June. MSCM (tractor-based) radiation surveys were completed in April. Planning for additional radiation surveys using high-purity Geranium (HPGe) detectors is underway.
